

# Albuquerque Chapter of the American Guild of Organists Organ Teachers 2016-17

(updated November 22, 2016)

Members named here are available to teach organ, based upon those who indicated their availability in their membership renewal applications for this year. Location of the member is indicated.

Our teaching members have advanced degrees in performance and considerable experience in a variety of repertoire. It is left to the negotiating parties to determine an acceptable rate of tuition and fees, convenient scheduling, and practice facilities.

At your first consultation, it is to your advantage to discern your prospective teacher's qualifications and credentials, to openly discuss your musical goals, and to set out mutually agreed upon expectations for your course of instruction.
